

BENTSAI B2 Handheld Inkjet Printer

low-cost handheld printer

The Bentsai B2 printer offers a convenient and affordable solution for printing text, detailed graphics, barcodes and QR codes onto porous and non-porous surfaces with 12.7mm print-height.

The printer is simply rolled across the product surface with the integrated encoder ensuring consistent printing regardless of speed.

Plastic, metal, card, timber, foam and many other materials can be printed with a wide range of ink colours.

BENTSAI

cardboard - wood - metal - plastics - foam ...

printing guides

The Bentsai B2 printer is supplied with a printing guide to aid printing onto awkward-shaped and uneven products. Martek also supplies custom guides for the most demanding applications.

porous and non-porous surfaces

Water-based inks are used to print onto porous surfaces including cardboard, paper and timber.

Solvent-based inks can be used to print onto non-porous surfaces including metals, plastics and EPS.

choice of ink colours

Specification

Print technology:	Thermal inkjet
Print height:	Up to 12.7mm
Print resolution:	300dpi
Operating system:	Linux
Touchscreen:	4.3-inch colour LCD capacitive touchscreen
Print speed:	Up to 165mm/sec
Text lines:	Up to 5
Text size:	2.5 to 12.7mm
Print contents:	Text, symbols, graphics, barcodes, 2D codes
Variable data:	Date, time, serial numbers
Database printing:	Automatic printing from UTF-8 text database
Barcode formats:	Code 128, EAN8/13, UPCA, ITF(2 of 5)
2D code formats:	QR

Ink cartridges:	1 x 12.7mm high cartridge, 42ml. Thermal inkjet technology.
Water-based inks:	Black, cyan, magenta, yellow, green
Solvent-based inks:	Black, cyan, magenta, yellow, green, white
Security ink:	UV-fluorescing solvent-based
Memory:	512MB
Battery:	2,600 MAh rechargeable
Battery life:	4-hours of printing
Dimensions:	136 x 50 x 233mm
Weight:	0.46Kg
Power supply:	100-245Vac (9V, 2A output)
Kit includes:	Printer, charger, ink cartridge, printing guide, case
Options:	Spare battery and charger, custom guides
