

BENTSAI B30 / B35 Handheld Inkjet Printers

compact handheld printers

Bentsai B30 and B35 printers offer a convenient and affordable solution for printing text, detailed graphics, barcodes and QR codes onto porous and non-porous surfaces with up to 25mm print-height.

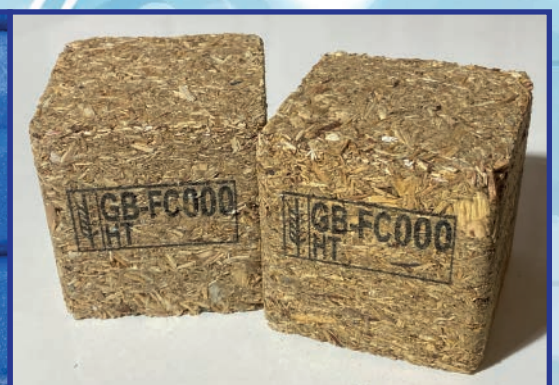

The B30 uses water-based inks to print onto porous surfaces including cardboard, timber and paper. The B35 can also use solvent-based inks to print onto non-porous surfaces including plastics and metals.

The printer is simply rolled across the product surface with the integrated encoder ensuring consistent printing regardless of speed.

BENTSAI

cardboard - wood - metal - plastics - foam ...

porous and non-porous surfaces

Water-based inks are used with the Bentsai B30 to print onto porous surfaces including cardboard, paper and timber. Low-cost refill packs for water-based inks guarantee economical printing.

Solvent-based inks can be used with the Bentsai B35 to print onto non-porous surfaces including metals, plastics, textiles and EPS.

choice of ink colours

printing guides

Bentsai B30 and B35 printers are supplied with a printing guide to aid printing onto awkward-shaped and uneven products. Martek also supplies custom guides for the most demanding applications.

Stabilising rollers are also included as standard to ensure straight printing for long print messages.

Specification

Print technology:	Thermal inkjet
Print height:	Up to 25mm
Print resolution:	300dpi
Operating system:	Linux
Touchscreen:	4.3-inch colour LCD capacitive touchscreen
Print speed:	Up to 165mm/sec
Text lines:	Up to 10
Text size:	3 to 25mm
Print contents:	Text, symbols, graphics, barcodes, 2D codes
Variable data:	Date, time, serial numbers
Database printing:	Automatic printing from UTF-8 text database
Barcode formats:	Code 128, EAN8/13, UPCA, ITF(2 of 5)
2D code formats:	QR

Ink cartridges:	1 x 25mm high cartridge, 42ml. Low-cost refill kits for water-based inks
Water-based inks:	Black, cyan, magenta, yellow
Solvent-based inks:	Black, cyan, magenta, yellow, green
Security ink:	UV-fluorescing solvent-based
Memory:	512MB
Battery:	2,600 MAh rechargeable
Battery life:	4-hours of printing
Dimensions:	136 x 50 x 233mm
Weight:	0.46Kg
Power supply:	100-245Vac (9V, 2A output)
Kit includes:	Printer, charger, ink cartridge, printing guide, stabilising rollers, case
Options:	Spare battery and charger, conveyor installation kit (B35), custom guides
