

SMART-JET *GLIDE*

TIJ INK JET PRINTER

Bluetooth Technology. Flexibility to Print Hard-to-Reach Areas.

MSSC Smart-Jet *Glide* Ink Jet Printers are compact and reliable and can be controlled wirelessly via Bluetooth technology using an Android smart phone or tablet. This power house coder prints on porous and non-porous surfaces and can print bar codes, QR codes and logos. Anti-shock mounting mechanism adjusts to surface irregularities for consistently smooth and high-quality printing results.

SMART-JET GLIDE
